With the Visit Alarm clock from Bellman & Symfon you no longer have to worry that you might oversleep. Choose to wake up to an extra loud alarm, four high-intensity flashing lights or a bed shaker that vibrates and emits a sound directly in your pillow. Perfect if you have a hard time getting out of bed or have trouble hearing. The Visit Alarm clock is also connected to the Visit alerting system transmitters. This means you will be awaken when the doorbell or phone rings, when your baby cries, or if there is a fire in the house.

The Visit Alarm clock has many unique features like the night light beacon, a mild blue light that guides you back to bed if you are up at night, and a smart snooze function that reduces the time intervals from 9 to 2 minutes. The alarm signal sweeps through the frequencies so that even if you have trouble hearing for instance high frequencies you will not miss it. The Visit Alarm clock is very easy to use. It has a large LCD display with adjustable back light and two separate push-rotate dials for setting the time and alarm.

In addition, you can connect the alarm clock to your telephone to amplify the ring signal or connect it to a door entrance contact mat.

### Features

1. **Extra loud 100dB* alarm**  
   Ascending multi-tone signal
2. **4x high intensity flash lights**  
   Effective even in daylight
3. **Powerful bed shaker**  
   Vibrates and emits a sound
4. **Night light beacon**  
   Leads you back to bed
5. **Battery backup**  
   Keeps all features functional
6. **Smart Snooze**  
   Reduces the snooze interval
7. **Bellman Visit compatible**  
   Functions as a Visit receiver

*100 dBA @ 4", 94 dBA @ 12"*
**Technical specifications**

### Size and weight
- Height: 4.3", 108 mm
- Width: 4.7", 121 mm
- Depth: 3.6", 92 mm
- Weight: 13.7 oz, 390 g incl. batteries

### Display
- Type: Twisted Nematic (TN) LCD
- Adjustable backlight intensity in 5 steps
- The backlight is activated by the snooze button
- Backlight color: white
- Display timeout: 8 seconds

- Battery supervision that monitors and displays the backup battery status.
- The backup battery powers the sound, bed shaker, flash light and beacon.

### Buttons and controls

### Connections
- External trigger input 3.5 mm stereo jack
- Telephone modular RJ-11 jack
- Analogue network: 26-120 V RMS, 15-100 Hz

### Output signals
- Sound
  - 100 dBA @ 4", 10 cm, 94 dBA @ 12", 30 cm
  - Built-in multiple frequency signal with a main frequency of 950 Hz - 3000 Hz
- Flash
  - 4 high-intensity pulsating LEDs
  - Warning! Flashes can cause epileptic seizures
- Bed shaker
  - Vibrator power: 2.0 - 4.0 VDC
  - Emits a sound

### Radio communication
- Frequency
  - BE1380: 433.9 MHz
  - BE1580: 868.3 MHz
  - BE1580 - 315: 314.9 MHz
- Operating range
  - BE1380: 197 ft, 60 m
  - BE1580: 656 ft, 200 m
  - BE1580 - 315: 98 ft, 30 m

### Environmental requirements
- Operating temperature: 59° to 95° F (15° to 35° C)
- Relative humidity: 5% to 95%

### Regulatory requirements
- Complies with the following requirements:
  - WEEE, Der grüne punkt, CE and RoHS

### Accessories
- The following accessories are available:
  - BE1271 Bed shaker without sound
  - BE9086 External trigger cable
  - BE9105 Telephone flex cable
  - Telephone adapter plugs for the appropriate country

### Output signals
- Sound
  - 100 dBA @ 4", 10 cm, 94 dBA @ 12", 30 cm
  - Built-in multiple frequency signal with a main frequency of 950 Hz - 3000 Hz
- Flash
  - 4 high-intensity pulsating LEDs
  - Warning! Flashes can cause epileptic seizures
- Bed shaker
  - Vibrator power: 2.0 - 4.0 VDC
  - Emits a sound

### Environmental requirements
- Operating temperature: 59° to 95° F (15° to 35° C)
- Relative humidity: 5% to 95% (non condensing)

### Regulatory requirements
- Complies with the following requirements:
  - WEEE, Der grüne punkt, CE and RoHS

### Accessories
- The following accessories are available:
  - BE1271 Bed shaker without sound
  - BE9086 External trigger cable
  - BE9105 Telephone flex cable
  - Telephone adapter plugs for the appropriate country
